Note- These dimensions are for 3 sided viewing configuration only. Please refer to the IOM for updated dimensions and drawings on all configurations.

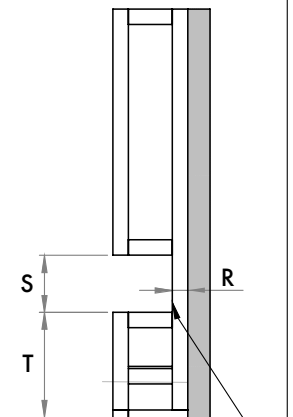

Checkout support 300mm X 20mm to allow for 25mm clearance for flue

Detail 'Q'

Note 617mm / 334mm / 90mm
Allows for 10mm cladding to finish flush with appliance trimmers. Where thicker cladding is being used these dimensions will need to change- Eg. For 20mm cladding use 607mm / 354mm / 80mm

Available in 1200 and 1800 sizes as a 1 sided, 2 sided or 3 sided display configuration.

Decorative room sealed fireplace without any requirements for ventilation.

2 back panel options- Available as Ribbed Ceramic or ROBAX® Magic Black Glass.

Premium fuel bed inspired by mountain woodlands

Power Balanced Flue system that can run up to 50m in length without any condensate traps or insulation.

Anti - reflective glass enhances the view of the flame and the media.

Available in NG, LPG and ULPG.

No requirements for fixed ventilation.

Nuvo range comes with unparalleled fuel bed options that are true to its heritage. The fuel beds are inspired by branches gathered from the mountains surrounding Real Flame's base in Melbourne, Victoria- following a storm in the region.

To enhance the aesthetic integrity of the range, Nuvo is offered standard with anti-reflective glass, ensuring the client's focus is on the relaxing flame as it interacts with the enchanting fuel beds. The back of the firebox is clad with vertically ribbed ceramic panels as standard, but clients have the option to choose SCHOTT ROBAX Magic Black glass for additional visual impact.

MEDIA BED OPTIONS

Alpine Forest

Nordic Pine

Redgum and Coals

River Gorge

Tasman Shoreline

* When using a pebble tray or pedestal and base only.

WONDERFIRE

Firebox size	462(w) x 240(d) x 320(h)
Heating style	Radiant / Convection
Gas	Natural Gas Only
Input	32 Mj/hr
Burner Options	Available as Electronic Burner only or with a fan forced box.
Media	Coals only
Accessories	Edwardian and Victorian mantle finish options.
Flueing	Optional 2.4mtr long 150mm flex flue liner available for installs into an existing fireplace. Optional 3.6mtr long flue kit with cowl available for new builds.

A gas fireplace with a decorative arched surround and a fire burning inside. The fireplace is set within a dark wood panel. The surround is ornate with a repeating geometric pattern. The fire is bright and lively, with orange and yellow flames rising from a bed of dark, glowing logs. A metal grate is visible in front of the fire.

Enjoy the sight of a traditional fire without the need to chop wood and clean the ash. The Wonderfire will have you believing the lively dancing flames and coal are real wood. The heart of the Wonderfire is a sophisticated ceramic venturi burner that delivers gas in complete combustion.
